Our Journey

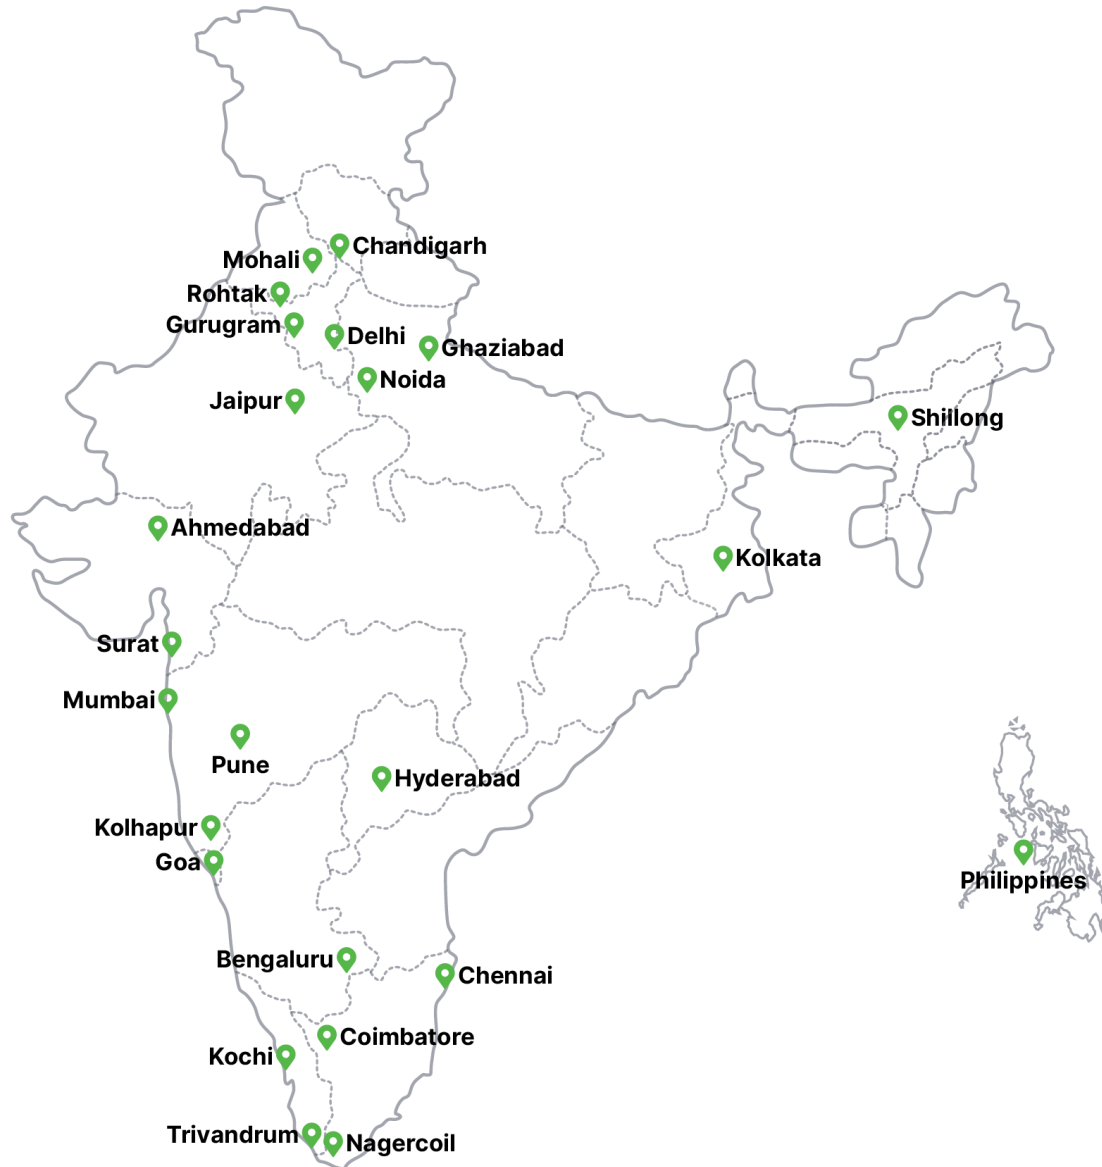

MTAP Technologies

Tech Focused, No Fleet

Established in 2015, **MTAP Technologies** builds innovative SaaS solutions that are revolutionizing the transportation industry in India and across the globe.

Safetrax, MTAP's flagship product is the most trusted employee transport management software that automates daily transport operations to create a safe commuting experience. Our tech-only approach and auditing expertise set us apart from our competitors, making us a preferred software partner for corporates.

Case Study

Migration from legacy
tech platform to
Safetrax

Fortune 10 Software Company migrated to Safetrax

Challenges

- Limited Customization
- Tech provider pushing fleet business
- Unsatisfactory Customer Service
- Limited Product Updates
- Inadequate Billing Support

The Safetrax Impact

Tech-Focused approach and avoiding direct involvement in fleet services to avoid conflict of interest

Automated ticketing tools to resolve queries in stipulated SLAs

Tailored ETS for client-specific customizations, enabling smooth operations

Streamlined billing for multiple fleet vendors with customized billing logic

Tailored solution and modules to support client's 100% EV campus

Case Study

Migration from end-to-end provider to Safetrax + Fleet Operators

Large Retail MNC Migrated to Safetrax

Challenges

- High management fee
- Vehicle availability
- Lack of Maker and Checker Process
- Inefficient Route Management
- Poor Customer Service
- High No show percentage
- Lack of Customization
- Poor ROI

The Safetrax Impact

No shows dropped by 30% by customizing cutoff as per client requirement.

Multiple vendors to ensure fleet available for hybrid setup. Assured quality service.

100% savings on management fee. 20% savings on technology cost

Dedicated Call Masking number for enhanced trust

Route & fleet optimization and improved occupancy

Employee Safety-First Approach

Safe Reach

Multi-mode Safe reach Confirmation for female employee

Call Masking

Call Masking on recorded lines for employee privacy

Intelligent Routing or Route Planning

Special Routing for female employees

Escort Management

Auto assigning Escort during the trip as per company policy

Share Trip

Share trip link with near and dear ones

Instant SOS Call

Instant call trigger with alarm when the SOS is raised

Contactless Confirmation

Contactless confirmation using Safetrax App or via Dual OTP

Blacklisting Non-Compliant Drivers

Blacklists drivers who are found non-compliant

Violation Alerts

Geo-fence violation, over-speeding and route deviation alerts

Feedback and Ratings

Employee feedback and can rate driver & cab hygiene

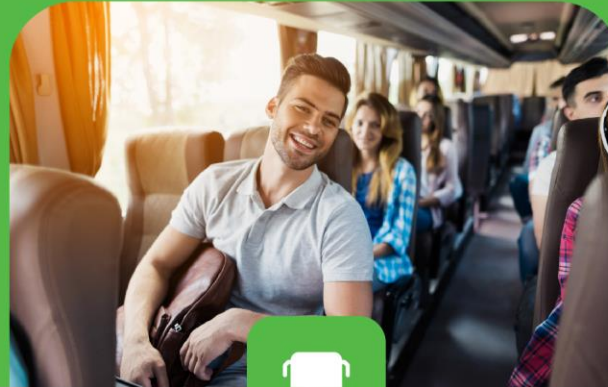

All-in-One Cloud-Based ETS

Resolved By
Helpdesk

- Provision to trigger SOS through soft button
- Immediate response workflow
- Real time alerts with relevant information to tackle incident
- Automated tickets for the incidents

Compliance

The screenshot displays the 'Compliance' section of the Safetrax application. The interface includes a sidebar with navigation options: HOME, TRIPS, SHUTTLE TRIPS, SPECIAL TRIPS, LIVE MAP, REPORTS, ALERTS, ROSTER, and SETTINGS. The main content area shows a breadcrumb trail 'Compliance > Driver' and a dropdown menu for 'Bangalore'. There are filters for 'Employee' and a search bar. A status bar indicates 55 notifications and 0 alerts. The 'Compliance' tab is active, showing a list of drivers and vehicles. The table has columns for Vendor Name, Driver First Name, Driver Middle Name, Driver Last Name, Driver Phone, and Vehicle. The data is filtered by 'Active' status. A legend indicates that green dots represent 'Compliant', red dots represent 'Non-Compliant', and yellow dots represent 'About to expire'. An 'Export As Excel' button is available.

Vendor Name	Driver First Name	Driver Middle Name	Driver Last Name	Driver Phone	Vehicle
Safetrax	AMIT	wani	test	[REDACTED]	8163
Safetrax	Abishegh	R	i	[REDACTED]	
Safetrax	Adinarayanappa	Adinarayanappa	Adinarayanappa	[REDACTED]	3859
Safetrax	Ajeet	Test	K	[REDACTED]	6641
Safetrax	AMIT	wani	test	[REDACTED]	8163
Safetrax	Abishegh	R	i	[REDACTED]	

- Driver & Vehicle Compliance
- Compliant and Non-Compliant Colour code for Drivers & Vehicles
- Maker and Checker Module available for the compliance team
- Export data as Excel

Reports

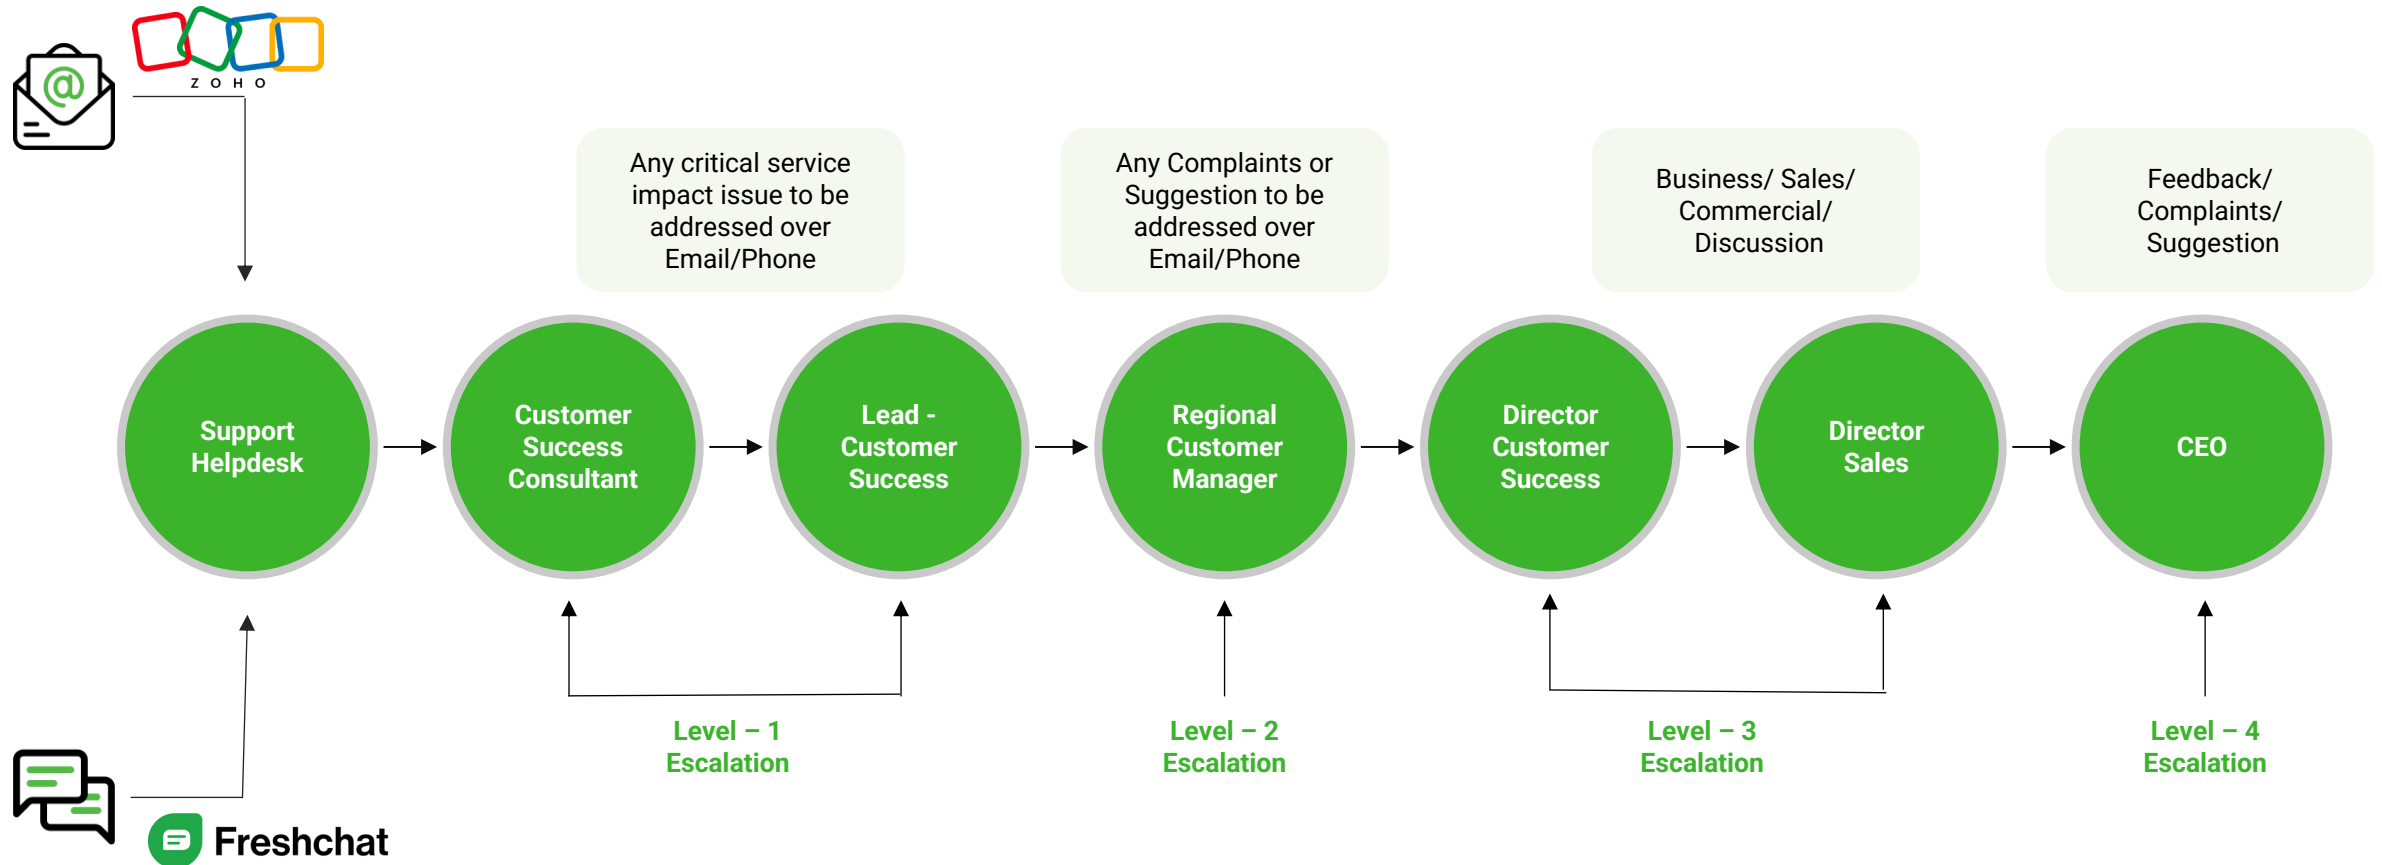

The screenshot displays the Safetrax Reports interface. A dropdown menu is open, showing various report types: Trip Report, SOS Reports, Speed Violation Reports, Speed Violation Ticket Report, Stoppage Non Adherence Report, Transport Utilization Reports, Trip No Confirmation Reports, Trip Report (highlighted), Vehicle Daily Status Reports, Vehicle Performance Reports, and Vehicle Status Reports. The main interface includes a sidebar with navigation options like HOME, TRIPS, MISCELLANEOUS TRIPS, SPECIAL TRIPS, LIVE MAP, REPORTS, ALERTS, ROSTER, SETTINGS, TOOLS, and LOUNGE. The top header shows the location (Bangalore), employee search, and user profile (Ashish.Shar...). The main content area features a date range selector (01-06-2024 to 26-06-2024), a search bar for employees, and a 'Generate' button. Below the date range, there are buttons for 'Download Summary' and 'Download Detail'. The table below shows trip data for the period from 01-06-2024 to 19-06-2024.
